HELP US BE RESCUE READY AND  
SAVE QUEENSLAND LIVES

# About RACQ LifeFlight Rescue

RACQ LifeFlight Rescue has been Queensland's leading community helicopter rescue service for more than 40 years.

As a trusted and relied-upon provider of emergency aeromedical care, we bring lifesaving medical treatment to seriously ill and injured patients across the state.

With a fleet of 10 rotary-wing aircraft operating from seven Queensland bases, this vital rescue service provides the people of Queensland with the assurance that emergency medical care is available 24/7, 365 days a year.

RACQ LifeFlight Rescue has made a difference to the lives of thousands of people, having flown more than 56,000 critical rescue missions since 1979.

# Join the Save a Life program today

Here at RACQ LifeFlight Rescue our purpose has always been the same – to save lives and support Queenslanders during their time of need.

Our ability to provide this lifesaving care relies on the support and generosity of the Queensland communities we serve.

As a Save a Life Supporter, you will help deliver more than 6,500 lifesaving missions each year. Your donation will help keep our aircraft equipped with fuel, highly trained flight crews and medical equipment.

Without this support, we would not be able to keep our helicopters in the skies above Queensland, saving lives. That's why our Save a Life Supporters are so important to us, and why we would be grateful if you were to join us today.

# Fuel for Life Partner

## How your support will help

It probably comes as no surprise that without fuel there is no mission.

RACQ LifeFlight Rescue aircraft rely on a very special kind of fuel to complete every single mission and your support is invaluable in making sure our aircraft are fuelled and ready to respond to every emergency call. Each year around \$700,000 per base must be raised with the help of generous donors like you to keep our crew in the skies.

# Rescue Partner

## How your support will help

RACQ LifeFlight Rescue completes more than 6,500 rescue and retrieval missions each year – that’s an average of 17 missions per day.

Vital to the success of each mission are the incredibly passionate and skilled ground and aircrew. These dedicated critical care doctors, nurses, pilots, engineers and support crew are on site and ready to take off within minutes of an emergency call day and night. Your support will help provide them with the best possible facilities, training and support.
